

TIME2TALK®

FINALLY, A CART AGNOSTIC MANAGEMENT TOOL

MANAGE YOUR DIVERSE CART FLEET FROM A SINGLE PLATFORM

T2T monitors and manages any manufacturer's mobile computer carts you have, even non-powered configurations.

- Reduce Helpdesk Cost
- Track Cart Location
- Integrate With Your Work Order System
- Identify and Redeploy Underutilized Carts

- Extend Battery Life
- Increase Cart Availability
- Improve Clinician Satisfaction
- Proactive Battery Replacement Reporting

PROVEN ROI

But that's not all...

MEASURE DEVICE UTILIZATION ACROSS YOUR ENTERPRISE

Track device usage based on actual user keyboard strokes and mouse clicks, not by AP connectivity alone.

- Monitor PCs, laptops, tablets, thin clients, battery powered AIOs, etc.
- Repurpose underutilized devices.
- Track number of displays and utilization per workstation.
- Integrate with your asset management system.

PROVEN ROI

REDUCE ENERGY COST AND CARBON FOOTPRINT

Patented "GreenTech" centrally managed power function conserves energy and saves money.

- Inactive Computers are put to power save Level 3, offering significant energy savings.
- Upon keyboard touch or mouse click, device wakes up almost instantly from Level 3 power save.
- Wake up devices at custom scheduled time allowing efficient critical patch deployment.
- On board Energy Star approved calculator determines realized ROI.

PROVEN ROI

IT'S ABOUT TIME!

TIME2TALK®
