About us

Simplifi Medical is a privately held company headquartered in Chicago, IL. With over 2 decades of Point of Care experience, the Simplifi team is redefining the Point of Care industry.

Our mission is to reimagine Point of Care designs and help simplify the workflow in hospitals. Our products are engineered to be elegant, functional, long lasting, and most importantly, loved by our customers.

Our inspiration is you, the customer. We have listened to nurses' struggles, IT staff's complaints, and administrators' frustrations with maintenance bills. After 3 years of development, we proudly launched EVA, an elegant cart that eliminates the struggles, complaints, and frustrations.

EVA is the first medical cart with 40+ hours of runtime. Learn more about why EVA is different and how 40 hours of runtime will make your nurses happier, save you money, and help the environment.
