IDENTIFICATION & ACCOUNTABILITY SOLUTIONS

Elliott provides integrated technology solutions that deliver multiple levels of physical and digital security through identity verification, access control, and video surveillance.

PROFESSIONAL SERVICE & SUPPORT

IDENTIFY

PHOTO IDENTIFICATION

Elliott works with users to create and support a comprehensive, cost-effective photo identity program that makes sense for organizations. Choose from desktop or high issuance printers, ID software and photo capture devices to build your ID card printing system.

Ask Elliott about their Smarttrade program to learn if you may receive cash for your old ID card printer.

CREDENTIAL SECURITY

Elliott offers ID card printing systems that produce secure, sophisticated credentials backed by intelligent technology. Personalized ID cards and badges grant cardholders access to protected areas or networks while reducing the risk of fraud with durable, highly secure topcoats, laminates, and tactile impressions.

DIGITAL CREDENTIALS

Elliott features IdentityGuard, a software authentication solution protects identity data with strong security during online and mobile transactions. It protects access to websites, enterprise, VPNs and cloud apps, portals, PCs, buildings and more. IdentityGuard does all of this from a single point of administration.

ACCOUNTABILITY MANAGEMENT

Elliott's line of Mobile Solutions Identification and accountability systems are comprised of mobile security, positive ID, and accountability tracking and management solutions.

ACCESS

ACCESS CONTROL

Elliott offers access control systems that use integrated hardware and software technology and tools such as ID card technology readers, identity management software and a variety of ID cards to grant access.

VISITOR MANAGEMENT

Quickly identify, log and print a badge for visitors within seconds using a three step process that provide the accountability organizations need to secure their facility and the people in it.

CAMPUS CARD SOLUTIONS

An all inclusive system that connects users to a wide variety of functionality such as building access, cashless payment, account management and activity tracking, provide a positive user experience on your campus and strengthens student/employee loyalty.

LOCKDOWN ALERT SYSTEM

Drastically reduce notification time to responders during an emergency at your facility. Automated alerts can be sent via chat or email and provide instant visibility of the situation status using a dynamic graphical floor plan map accessible by tablet, laptop, desktop computer, or smart phone.

VIDEO SURVEILLANCE

Monitor facilities using live stream and capture IP security camera video, incorporate video analytics and access control with video management to enhance your security program. Control user access using permission-based software and device configuration. Generate reports, retrieve video footage and export data.

ACCOUNTABILITY SOLUTIONS

Applications Designed & Developed by Elliott Data Systems, Inc.

CREDENTIAL & DATA MANAGEMENT

Electronically organize and manage data. Perform personnel data management, print IDs, and build a network of Administrators who work interoperability by sharing data across your organization.

ASSET TRACKING

Identify and electronically manage assets to expand available resources across your organization and work with greater efficiency. Manage inventory levels, build a centralized database, identify assets, assign assets, time stamp activity, and much more.

SOPHISTICATED TRACKING

Work more efficiently by tracking activity during routine or special events. Empower staff by having personnel data at their fingertips using a very comprehensive event tracking system. Support audit trails and internal processes by generating event activity and personnel reports.

Mobile Solutions is a modular identification and accountability system used to increase efficiency and interoperability throughout organizations. These solutions may work independently or integrated together to create a more powerful system.

BASIC TRACKING

EPIC Track is a simple tracking solution that can be used to track people, places and things for daily use or during special events. The software provides a time stamp during check in and out by scanning a person's barcode ID, an asset barcode tag or selects from a drop down list of data such as locations.

EPIC Track is very flexible with it's ability to track using a smartphone, adapt to any basic check in/out tracking scenario, and perform on or off-line making it easy to use in any location.

SECURE SOLUTIONS

SOPHISTICATED CREDENTIALS

Print secure credentials backed by intelligent technology. Personalized ID cards and badges grant cardholders access to protected areas or networks while reducing the risk of fraud with durable, highly secure topcoats, laminates, and tactile impressions.

ID CARD FEATURES

Protect ID cards against fraud and counterfeiting using secure features such as:

- Security overlays such as holographic, microprinting, or OVDs
- Contact or contactless smart card or RFID technology
- Personalization with photos, signature, etc.
- Durability overlays to protect card elements
- Barcodes or magnetic stripe encoding
- Unique branded tactile impressions
- Ultraviolet difficult-to-copy layers
- Durable substrate layers

A VALUE ADDED SOLUTION FOR ANY LEVEL SECURITY PROGRAM

» Benefits of Adding Access Control

- > Centrally controlled security by authorized users.
- > Block unwanted intrusions at the point of entry.
- > Efficient re-Issuance & lost key processes.
- > Avoid door code/combination sharing.
- > Restrict access to authorized personnel.
- > Set automated door open/lock schedules.
- > Easily perform evacuation mustering checks.
- > Generate reports on door activity.

» Pre-existing Access Control System Benefits

- > What was secure before might not be now. Prox cards are easily copied on the street, while smart cards are more secure.
- > You might be overpaying for card supplies & can reduce your budget with a simple quote.
- > Access control is now compatible w/smart phone credentials.
- > Easily leverage your cards for two-factor authentication.
- > If you have a system but don't have the technical support you need, you might want to consider outsourcing tech support.

Utilizing ID Cards to their Fullest Potential

Elliott Identification & Accountability Solutions

SERVICE

COMPLETE SERVICE & SUPPORT

Our team of professionals are experienced in implementing and supporting Elliott's line of identification and accountability solutions. Our solutions are tailored to meet the goals of Elliott customers ranging from simple, basic systems to more advanced, intricate solutions.

STEP 1

1-888-345-8511

Tell Us Which Solutions You're Interested In

Contact Elliott to schedule an online overview of any product you would like to learn more about. Our **Solution Experts** will work with you to design an identification and accountability program based on your organization's needs and goals. There's no obligation and we'll even provide on-site presentations to your team to help explain the solutions you would like them to consider.

STEP 2

Schedule Time with a Project Manager

Elliott's team of **Project Managers** (PMs) walk our customers through the implementation process and coordinate key tasks to be completed on schedule. Our PMs are responsible for system setup, installation and user training to ensure that your team become experts in using your new system and are successful.

STEP 3

Rely on Behind the Scenes Technical Support

Elliott's **Technical Support** team is available to provide complete support for your organization by answering questions, performing maintenance, and trouble shooting via phone, remote desktop, or on-site support. Elliott's Complete Support Preventative Maintenance locks in VIP technical care for your system to maximize the life of your hardware and software.
